

WILDEBEEST MIGRATION

The migration is rarely the same in terms of exact timing and direction. However, the typical route is:

- **January/February/March:** short grass plains of the southern Serengeti, Tanzania
- **April/May:** central Serengeti Plains
- **June:** western corridor of the Serengeti/Grumeti River crossing
- **July:** northern Serengeti/Mara River crossing
- **August/September/October:** Masai Mara in Kenya
- **November/December:** southward journey back to the Serengeti
